

Usama Akhtar

Web Developer

As a highly skilled Web Developer and Laravel Developer, my goal is to leverage my expertise in web development, programming, and Laravel framework to create dynamic, user-friendly, and responsive web solutions that meet the needs of businesses and organizations. With a solid foundation in software engineering principles, I am committed to delivering high-quality and scalable web applications that are tailored to the unique requirements of clients. My objective is to work in a challenging and dynamic environment that fosters creativity, collaboration, and innovation.

Experience

2021- 2022 Devicon Software House I RahimYarKhan Laravel Inernship

As an intern at Devicon Software House, I had the opportunity to work on real-time based projects and gain hands-on experience in web development using various technologies. During my one-year internship, I completed numerous paid projects that involved developing custom web solutions for clients. Some of my key responsibilities and accomplishments during this internship include:

- Collaborated with senior developers and project managers to design, develop, and maintain web applications using HTML, CSS, JavaScript, and PHP.
- Participated in team meetings and code reviews, providing constructive feedback and suggestions to improve the quality and performance of web solutions.

2022 - Ongoing Dammah Worker I Sadiqabad Full Stack Web Developer

As a Full Stack Web Developer at Dammah Worker Company, I am responsible for developing and maintaining a high-performance e-commerce platform and earning platform for the company's clients. My role involves collaborating with designers, project managers, and stakeholders to deliver scalable and user-friendly web solutions that meet business requirements. Some of my key responsibilities and accomplishments in this role include:

- Integrated with third-party APIs, such as payment gateways, email providers, and social media platforms, using RESTful APIs and web services.
- Developed responsive and mobile-first websites using Bootstrap framework and CSS preprocessors, such as SASS or LESS.

2023 - Ongoing The DA Tech I Karachi Laravel Developer

As a Laravel Developer at TheDatech Worker Company, I work remotely with a team of developers to build and maintain web applications using Laravel framework. My role involves collaborating with project managers and stakeholders to deliver scalable and high-performance web solutions that meet business requirements. Some of my key responsibilities and accomplishments in this role include:

- Built custom web applications using Laravel framework, implementing features such as user authentication, data validation, and error handling.
- Collaborated with designers to ensure that web solutions were designed with scalability and user-friendliness in mind.
- Successfully delivered multiple web solutions within tight deadlines, ensuring customer satisfaction and quality assurance.
- Collaborated with designers to ensure that web solutions were designed with scalability and user-friendliness in mind.
- Successfully delivered multiple web solutions within tight deadlines, ensuring customer satisfaction and quality assurance.
